

Feed More collects, prepares and distributes food to neighbors in need throughout Central Virginia. With a service area that stretches across 29 counties and five cities, Feed More's comprehensive programs and network of nearly 300 agencies helps ensure our communities have access to healthy meals year round. Feed More is a proud member of [Feeding America](#) and [Meals on Wheels America](#).

While Feed More's lines have not gotten longer, the need of the folks we help has gotten greater. Most of the people we help come to us in emergency times and are the working poor, who are struggling to make ends meet. Often times, these neighbors are forced to make tough decisions – pay the bills or buy healthy groceries.

Through programs and our Agency Network, Feed More distributes nearly 24 million meals every year. Programs like the Kids Cafe, Meals on Wheels, weekend Backpack program and Mobile Pantry allow us to distribute food throughout our service area when our neighbors need help.

Feed More's Agency Network is comprised of food pantries, soup kitchens, emergency shelters and other nonprofits. These community-centric organizations help ensure the food Feed More collects and prepares is distributed to the neighbors in their communities who need it most.

How to join the Feed More movement

1. **Food** – A food drive is a great way to help us keep our shelves stocked.
2. **Funds** – At Feed More, more than 96 percent of each gift supports our programs and services. Each \$1 donated helps Feed More provide 4 healthy meals to our neighbors who need it.
3. **Time** – Feed More relies on hundreds of volunteers every single day. We are always looking for compassionate friends to help us fight hunger.
